The PEACE PLUS Programme- Youth Sector

The PEACE PLUS Programme is a €1bn investment in the social, economic and environmental development of Northern Ireland and the border counties of Ireland.

Building upon the success of previous cross border PEACE and INTERREG Programmes, it will contribute to a more peaceful, prosperous and stable society, leaving a lasting legacy across the Programme area. This will be achieved by funding activities that promote peace and reconciliation across six themes, which encompass 21 individual investment areas as outlined below. These have been developed to optimise engagement and participation across all communities and sectors.

A public consultation regarding the potential PEACE PLUS Programme design was held in 2019-20. In response to the views expressed, SEUPB has developed the Programme to ensure multiple opportunities for engagement by **Children and Young People and the Youth Sector**. These include dedicated measures for Children and Young people (Theme 3). There are other investment areas within PEACE PLUS, which although not exclusively for children and young people, will provide significant opportunities for Youth Sector involvement (**Themes 1,2, 3, 5 and 6**).

We now look forward to receiving your views on the investment areas proposed as part of the Statutory Public Consultation process, and wish to outline all the areas across the Programme which may provide opportunity for you to get involved, and begin preparation of potential projects.

Theme 3: Empowering and Investing in Our Young People

This Theme is entirely focused upon investment in our young people. This is essential to ensure the long-term peace and prosperity of the Programme area. Many have grown up in predominately single identity areas and attended single identity schools. Combined, these factors have resulted in limited, if any opportunity to develop relationships with those from different community, cultural and political backgrounds. Theme 3 will present a number of ways in which young people can engage in cross community and cross border activities, which both enhance their lives and contribute to greater community cohesion. There are three distinct investment areas as outlined.

3.1 Shared Learning	This investment area will be a further development of the PEACE IV cross community				
Together Programme	and cross border school partnership model. It will also facilitate non-curricular youth				
(€45m)	to youth cross community and cross border exchanges. It will incorporate				
(€45M)	opportunities for cross border youth worker collaboration and development.				
3.2 PEACE PLUS Youth	This investment area will build the capacity of marginalised and disadvantaged				
Programme (€45m)	young people within the Programme area, while enhancing their employability.				
(04511)	Supported projects will incorporate the 'one good adult' approach.				

3.3 Youth Mental				
Health and Wellbeing				
(€20m)				

This investment area will increase the number of resilient young people within the Programme area, with the capacity to be in control of their own lives and make a positive contribution within their communities. It will focus on the social, emotional and environmental wellbeing of young people.

Other Opportunities for the Youth Sector to Engage in PEACE PLUS

Theme 1: Building Peac	eful and Thriving Communities			
1.1 Co-designed Local	This investment area will enable and empower council led local community			
Community PEACE Action	partnerships, to self-determine and deliver priority projects on a cross			
•	community basis. These will include projects designed to support and improve			
Plans (€90m)	the lives of children and young people.			
1.2 Empowering	This investment area will support the delivery of people-to-people projects by			
Communities (€30m)	local community organisations. It will enable participation by smaller organisations who can often be best placed to affect real change and embed			
	peace at local community level, through the provision of a small grants			
	programme. It will provide opportunities for up skilling staff in community			
4.2 Pullalina Positiva	organisations who work with children and young people.			
1.3 Building Positive	This investment area will provide support for projects which transcend local boundaries and have the potential to achieve significant peace and reconciliation			
Relations (€30m)	across the Programme area. It will present opportunities for projects progressed			
	by Youth Sector organisations.			
1.4 Re-Imaging	This investment area will offer the potential to develop new and transform			
	existing spaces into shared environments for use by children and young people			
Communities (€60m)	and to develop and deliver related shared activities and programming.			
Theme 2: Delivering Eco	onomic Regeneration and Transformation			
2.3 Programme Area Skills	This investment area will support area-based approaches to address emerging			
Development (€35m)	skills requirements, including those within the Youth Sector; thus enhancing the			
Development (essin)	skills base of youth workers across the Programme area.			
Theme 4: Healthy and I	nclusive Communities			
4.1 Collaborative Health	This investment area will support the development of innovative community-			
and Social Care (€80m)	based health care interventions, which complement statutory provision (including social enterprise models). It will include a focus upon children's mental			
	health provision and health and well-being issues.			
4.2 Rural Regeneration	This investment area will fund a range of initiatives designed to redress social			
and Social Inclusion	isolation, which can be prevalent amongst people of all ages within rural areas.			
(€50m)	It will include provision for the creation of family support programmes, including			
(65611)	those which provide support for children and young people, and provide			
	opportunities that will encourage young people to remain in rural areas.			
Theme 5: Supporting a	Sustainable and Better Connected Future			
5.1 Biodiversity, Nature	This investment area will focus upon biodiversity and nature protection. It will			
Recovery and Resilience	include education initiatives and activities, which enable local communities to			
(€15m)	address climate change. This will provide opportunities for young people to get			
· · · ·	involved in climate action initiatives.			
Theme 6: Building and	Embedding Partnership and Collaboration			
6.2 Maintaining and	This investment area will finance smaller projects that increase social and civic			
Forging Relationships	cohesion on a cross border basis. It will provide opportunities for cross border			
between Citizens (€20m)	initiatives led by Youth Sector organisations.
