FOREWORD

WELCOME TO THE WINTER EDITION OF YOUR EU!

As another difficult and challenging year ends, we step forward into a year which we hope will lead us to the road of recovery from this global health crisis.

We have become familiar with all forms of digital technology, which has been so important in keeping us connected, ensuring that vital work and outputs are maintained. However, I relished the opportunity to step back into the office with colleagues and attend project events in person. As much as technology has great benefits, there is no substitute to making and sustaining relationships and connections. Hopefully things will continue to improve and 2022 will be a much more physically connected year.

It is important to recognise the success of the public consultation process for the PEACEPLUS Programme, which allowed us to complete the Programme content and obtain approval from the Northern Ireland Executive, the Government of Ireland and the North South Ministerial Council.

This will be a significant year for the SEUPB, with the continuation of project activity within the current PEACE IV

and INTERREG VA Programmes and the launch of PEACEPLUS. We have been working hard to design the administrative architecture for the implementation of the Programme so that we can launch the funding calls as early as possible. Please continue to follow our social media channels for information, including our website www.seupb.eu. You can also sign up for regular updates by requesting to join the PEACEPLUS mailing list: peaceplus@seupb.eu

Throughout the year, we will also take part in many PEACE IV and INTERREG VA project closure events. I wish to once again reiterate my utmost respect for the projects and their resilience in implementing the activity that helped so many during the pandemic and I very much look forward to being a part of these closure events, to celebrate the outstanding achievements of staff, participants and project partners.

In this edition you will find a number of articles relating to not only project closure events, but also a few launch events. You will also find some of the latest project

news including the esteemed accolade for the INTERREG VA funded North-West Multimodal Transport Hub, which won an award at the European Union's REGIOSTARS awards. This is a very prestigious, Europe wide competition, and is a fantastic achievement.

Should you like to get in touch about the content of this magazine, or suggestions for future editions, then please don't hesitate to contact our communications team: communications@seupb.eu

Warmest regards,

A handwritten signature in black ink, appearing to read 'Gina McIntyre', written in a cursive style.

GINA MCINTYRE
Chief Executive, the SEUPB

The vision is to provide a very unique, inclusive space for the whole community to use, affording them the opportunity to engage in a fully funded programme of activities and learning, enabling them to explore new skills and interests across the arts, culture, heritage and artisan food. We believe the regeneration of this iconic building will be transformational for the village, and indeed, the wider local community.

*Jayne Taggart, CEO,
Enterprise Causeway.*

For more information on
the project

A NEW €5M SHARED SPACE CREATIVE HUB FOR BUSHMILLS, COUNTY ANTRIM

The old Courthouse building in Bushmills, County Antrim, will be the site of a new €5m Shared Space Creative Hub.

The new Hub will seek to engage not only the local community, but individuals and groups from across the Causeway Coast and Glens Borough area and the border to participate in community cohesion and integration programmes via creativity and shared heritage.

Led by Enterprise Causeway, the project will involve the renovation of the 1834 building and will incorporate a new three-storey extension that will include:

- ▶ Visitor facilities and a retail shop;
- ▶ A café;
- ▶ Messy studio;
- ▶ 15 workshop studios;
- ▶ Three shared meeting spaces;
- ▶ Community workshop and event space;
- ▶ Car parking and;
- ▶ A garden area.

In addition to the capital build project, a Community Arts Engagement Programme will be rolled out. Some activity was delivered in the summer of 2021, with Enterprise Causeway having facilitated 10 different programmes to over 300 people including pottery and macramé for adults, scratch art, kite making for teens and a mini-maker back to nature art competition.

The project will support creative businesses, generate new jobs and provide dedicated and inclusive community spaces and skills development programmes.

The project is set to be completed by approximately March 2023.

From (l-r): Kieran Moylan, Principal Officer of the Libraries Development and Community Policy Unit, Department of Rural and Community Development Ireland; Gina McIntyre, CEO the SEUPB; Jayne Taggart, CEO, Enterprise Causeway; Andrew Molloy, Hamilton Architects; and Mark O'Donnell, Deputy Secretary for Housing, Urban Regeneration and Local Government, Department for Communities.

ELECTRIC VEHICLE PROJECT HELPING TO TRANSITION TO A LOW CARBON TRANSPORT SYSTEM

The governments of Scotland, Ireland and Northern Ireland all have a common policy - to transition to a low carbon transport system between now and 2040.

One of the ways that this can be achieved is to encourage public uptake of electric vehicles, however, without the presence of adequate public charging infrastructure, to date, this has been a challenge.

The €6.4m FASTER project (Facilitating a Sustainable Transition to EV's in the Regions) was developed to help provide the availability of rapid charging stations, helping to reduce one of the obstacles in the growth of the electric vehicle market across the three jurisdictions.

Officially launched in September 2021, FASTER will provide electric vehicle charging infrastructure with the installation of 73 Rapid Charging Points across Northern Ireland, the border counties of Ireland and Western Scotland.

The project will help to reduce reliance on fossil fuels by encouraging increased use of more environmentally-friendly forms of transport and will also seek to address some of the barriers to greater public uptake of electric vehicles.

The FASTER EV charging network will be installed on a phased basis over the next few years and will be supported by a series of public awareness and community

The FASTER project will provide 73 rapid charging points across Northern Ireland, the border counties of Ireland and Western Scotland.

engagement events, promotional campaigns and initiatives to address public concerns with existing charging infrastructure and producing materials to support the transition to low emission vehicles.

The project is being led by East Border Region, in partnership with Ulster University; South West College; University of Strathclyde; HiTrans; Louth County Council; and Dundalk Institute of Technology. The Consortium is also working with a range of Local Authorities across the three jurisdictions to identify suitable locations.

Tackling generational problems stemming from the conflict remains a very live issue. Future Innovators will not only foster cross-community interaction but also build the social economy in deprived areas.

Peter Sheridan, CEO, Co-operation Ireland.

NEW REGIONAL PROJECT TO HELP CREATE FUTURE INNOVATORS

Areas suffering disproportionately from the legacy of the conflict are to be supported by a new project, led by Co-operation Ireland, that seeks to boost the social economy through targeted funding.

The Future Innovators project aims to further develop peacebuilding and reconciliation within, and between communities north and south of the border through supporting social innovation projects.

Future Innovators will be based in the five Urban Village areas (areas of historical deprivation and social tension).

These areas include:

- ▶ North Belfast (Ardoyne and Greater Ballysillan);
- ▶ Derry/Londonderry (Bogside, Fountain and Bishop Street);
- ▶ West Belfast (Colin);
- ▶ East Belfast (Newtownards Road, Grampian Avenue to Bridge End);
- ▶ South Belfast (Sandy Row, Donegall Pass and the Markets) and;
- ▶ The border region of Donegal.

Social innovation means using new, creative approaches to develop practical solutions for addressing social, political, economic and environmental challenges such as poverty, employability or climate change, amongst others.

The project will work to build firmer connections and a thriving economy across communities and cultural backgrounds and will use social innovation to create projects that invest in people and the places where they live.

Prestigious Win for EU Funded North-West Transport Hub

The €23.5m North-West Multimodal Transport Hub was the proud winner of a prestigious, European Commission, REGIOSTAR award at a special virtual ceremony in early December 2021.

The REGIOSTARS Awards are a yearly competition, organised by the European Commission's Directorate General for Regional and Urban Policy. It aims at identifying good practices in regional development and highlighting innovative, EU-funded projects, which could be attractive and inspiring to other regions and project managers.

The project was selected as the winner under the Topic of the year category: *'Enhancing green mobility in the regions – European Year of Rail 2021'*.

This award category focused on projects which improve regional transport through new or upgraded rail connections and the creation of multimodal hubs. It is also linked to the European Commission's objective to achieve climate neutrality, as set out in the Green Deal, including a 90% reduction in carbon emissions within the transport sector by 2050. The Commission commended the NW Hub for providing "an increased rail capacity, a strong

balance of services for cycling, public transport and active travel users in Derry-Londonderry and an encouraging modal shift from car to public transport." For more on the Commission's announcement

Located at the former Waterside Train Station in Derry-Londonderry, the new North West Multimodal Transport Hub has been specifically designed to improve connectivity through the development of coordinated cross-border bus and rail services. It has a new park and ride facility with 100 spaces, including disabled spaces and e-charging points.

Led by the Department for Infrastructure, in association with a number of project partners, the hub also includes a bus turning area, for easier passenger drop off and pick-ups and a new Greenway path, linking the Hub to Foyle Street Bus Station and the city centre, via the EU-funded Peace Bridge, for cyclists and pedestrians.

The award follows in the footsteps of the project's other successful win, for Best Overall Entry at the National Railway Heritage Awards in London.

For more information on the award

MATCH-FUNDING

The Department for Infrastructure, Northern Ireland and the Department for Transport, Ireland.

The award demonstrates good practice in regional development and acts as an inspiration to other regions.

ENVIRONMENT PROJECT RECOGNISED AS EXCEPTIONAL EXAMPLE OF CROSS-BORDER PARTNERSHIP WORKING

The Collaborative Action for the Natura Network (CANN) project was a finalist at the 2022 prestigious Innovations in Politics Awards.

This Europe-wide competition, now in its fifth year, asks politicians from all over Europe to submit their most outstanding political initiatives.

CANN was nominated as an exceptional example of how partners are working together, across borders, developing practical solutions to address the urgent issues of climate change and biodiversity loss.

A jury of over 1,000 European citizens selected the finalists, from over 400 entries put forward from across Europe. CANN secured a position in the final ten of the Ecology Awards section.

Led by Newry, Mourne and Down District Council, the €9.4m CANN project is working with 11 partners to improve the condition of protected

habitats and to support priority species found within Northern Ireland, the border counties of Ireland and Western Scotland.

It is helping to ensure that conservation targets are met and the future of these internationally important habitats and species are protected.

The CANN project team will produce conservation action plans for a range of sites across the jurisdictions which are designated as Special Areas of Conservation, accumulatively accounting for over 3,150 hectares of land.

The nomination for CANN demonstrates the strength of cross-border working in helping to address the urgent issues of climate change and biodiversity loss.

I am immensely proud of the final position which the project has secured, as well as the strength of partnership working evident across councils, charities, academic institutions and government departments, in pursuit of a common goal, to improve environmental conditions.

*Councillor Cathy Mason,
Newry, Mourne and Down
District Council Chairperson.*

THE CANN PROJECT

Peatlands store more carbon than all the world's forests. Protecting them is an essential part of combating climate change. They are also a vital part of our biodiversity.

Collaborative Action for the Natura Network.

*By having an annual day each year, where we actively discuss **Transgenerational Trauma**, we can start to increase awareness and work towards breaking the cycle.*

Carol Scullion, Project Manager, Our Generation Project.

TRANSGENERATIONAL TRAUMA AWARENESS DAY DELIVERED BY PEACE-IV REGIONAL PROJECT

The €6.1m OUR Generation project recently held a Transgenerational Trauma Awareness Day to help raise awareness and expand the conversation around Transgenerational Trauma.

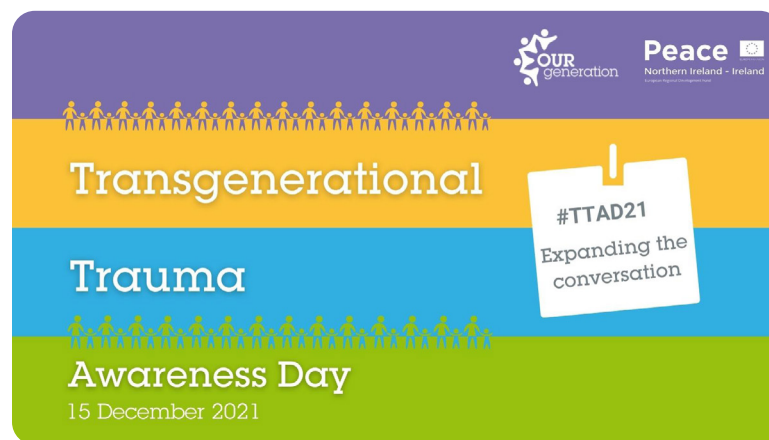

The first ever Transgenerational Trauma Awareness Day (TTAD21) was launched by the €6.1m OUR Generation project, aimed at raising awareness of Transgenerational Trauma and to help break the cycle of Troubles-associated trauma in generations of children and young people.

The OUR Generation project was created to provide a unique opportunity for communities, north and south of the border, to work together to halt the transgenerational impact of trauma and to build emotional resilience and peace for generations to come.

The event follows research carried out over the last decade which is recognising how the impact of violence from the Troubles lives on in families; having been transmitted to younger generations. The response of the body and brain to trauma can influence parents' feelings and behaviour in a way that can lead to poor attachment, adversities and trauma in their children and can influence how young peoples bodies respond to stress.

TTAD21 launched a social media campaign alongside a live, online event, attracting almost 200 participants from all over the UK, Ireland and places further afield such as Pakistan and South Africa. Among the speakers were Northern Ireland's Mental Health Champion, Professor Siobhan O'Neill; Dr Clare Dwyer, Lecturer of Law at Queen's University Belfast; and Dr Ciara Downes of the Northern Health and Social Care Trust.

The OUR Generation project is a cross-border partnership of seven regional organisations, led by Action Mental Health Donegal, in association with Youth Service, Co-operation Ireland, Youth Action NI, Youth Work Ireland, PlayBoard NI, and Ulster University.

MATCH-FUNDING

The Executive Office, Northern Ireland and The Department of Rural and Community Development, Ireland.

The project has been vital for the mental health and wellbeing of participants. Throughout lockdown the project was a lifeline for many young people, providing them with opportunities to engage online. The evaluations and interviews from participants speak for themselves. This project has changed lives for the better. It has given young people hope for the future!

***Gordon Woolsey,
Project Coordinator.***

TRANSFORMING THE LIVES OF YOUNG PEOPLE

Transform (Transformative Education for Positive Relationships) engaged 480 young people aged 14-24, over the last four years, supporting them to fulfil their potential, develop skills and confidence, gain OCN qualifications and contribute positively as active citizens in their communities.

The €2.4m Transform project was a partnership between Youth Link NI, Youth Initiatives and Mencap in Northern Ireland and was delivered across Derry-Londonderry, Lisburn, Belfast, Portadown, Omagh, Enniskillen, Downpatrick and Banbridge.

Young participants from Protestant, Catholic and BAME communities participated in youth work programmes that explored the core themes of Personal Development, Good Relations and Active Citizenship.

Young participant Ellen, from the Portadown cohort with Oasis Youth, filmed a vlog during lockdown. The vlog charted what life was like each week on the project, highlighting what the online sessions looked like as well as what challenges the group had set for themselves. To view Ellen's video click on the icon in the video below.

MATCH-FUNDING

The Department for the Economy, Northern Ireland and the Department of Children, Equality, Disability, Integration and Youth, Ireland.

This video is a wonderful opportunity to showcase the significant positive impacts and key achievements as a result of PEACE IV funding. Over 2,500 participants were engaged, including almost 950 young people and over 70 communities in a wide range of peace-focused initiatives and has, I believe, been instrumental in creating a more cohesive and forward-thinking society.

*Councillor Errol Thompson,
 PEACE IV Partnership.*

DOCUMENTING KEY ACHIEVEMENTS WITH COUNCIL LEGACY VIDEO

In December 2021, Fermanagh and Omagh District Council released a legacy video, highlighting the key achievements of their PEACE IV funded, Local Authority Action Plan (LAAP).

Initiatives and projects supported under the Council's LAAP centered around three strategic objectives: Children and Young People; Shared Spaces and Services; and Building Positive Relations.

Since June 2017, £2.8m of European Union funding has been used to develop positive change to the Fermanagh and Omagh area.

The video provides an insight into the impact of the 16 programmes that were delivered.

Each programme supported peace-building and cross-community interaction through a range of approaches, which included:

- ▶ Sports;
- ▶ Arts;
- ▶ Heritage;
- ▶ Horticulture;
- ▶ Language support; and
- ▶ Community development.

To view the full 17 minute video click on the icon in the below screenshot.

CROSS-BORDER COMMUNITY HEALTH PROJECT MAKES POSITIVE IMPACT FOR 10,000 PEOPLE

CoH Sync, a cross-border partnership between the statutory sector and eight community-based Hubs across Northern Ireland, the border counties of Ireland and the West of Scotland, has made a positive impact on the health and wellbeing of 10,000 people.

The Community Health Synchronisation project has been recognised as an exemplar cross-jurisdictional model for supporting population health and tackling health inequalities across the region.

Designed to help build the capacity of communities to deliver sustainable health and wellbeing programmes, the project supported Hubs to recruit and train 40 local Community Health Facilitators to deliver a diverse range of healthy lifestyle programmes to the residents within their communities.

People in local communities were encouraged and supported to take control of their own health by making sustainable small changes.

The CoH-Sync project reflects national healthcare policy which places an emphasis on prevention of the risk

factors associated with chronic illness such as Heart Disease, Cancers, Respiratory illness and mental health conditions.

The project also utilised a sophisticated digital Data Collection and Reporting System, which tracked the 'before and after' progress of participants who set goals to stop smoking, understand their alcohol consumption and safe drinking levels, increase physical activity, improve nutrition or improve their mental health.

For more information on the achievements of this project and details of the Hubs

This project has made a huge change to people's lives across a wide geographical area. In particular, many participants stated that the project helped them to cope with the impact of COVID-19 and the associated restrictions and enforced isolation.

CAWT partnership Chairperson, Dr Maura O'Neill.

MATCH-FUNDING

The Departments of Health, Northern Ireland and Ireland, with support from the Scottish Government.

EXAMPLES OF TRANSNATIONAL CO-OPERATION

Transnational programmes such as the Atlantic Area, Northern Periphery & Arctic and North West Europe Programme bring together regions from different EU and neighbouring countries that have similar geography, cultures and challenges. These challenges can be addressed through transnational co-operation. Below are a few examples:

The SEUPB performs the role of Regional Contact Point for the Northern Periphery and Arctic Programme and an Information and Support Point for the Atlantic Area, North West Europe and INTERREG Europe Programmes. It also carries out First Level Control for Northern Ireland partners for all four Programmes and promotes North-South cooperation and collaboration.

PASSION-HF

(Patient Self-care Using eHealth in Chronic Heart Failure)

PROGRAMME

North West Europe Programme.

OPERATIONAL DATES

May 2018 – December 2021.

AIM

To develop an integrated eHealth product called 'Abby' enabling self-care of chronic heart failure, including self-prescription of medication.

REDAWN

PROGRAMME

Atlantic Area Programme.

OPERATIONAL DATES

September 2017 – August 2020.

AIM

To improve the energy efficiency of water networks through the installation of innovative micro-hydropower (MHP) technology.

CLIMATE

(Collaborative Learning Initiative Managing and Adapting to The Environment)

PROGRAMME

Northern Periphery and Arctic Programme.

OPERATIONAL DATES

June 2017 – May 2020.

AIM

To promote and improve climate change awareness in European peripheral rural communities through a knowledge-based approach and community-led sustainable resource planning.

[For an overview of the INTERREG VB Transnational / VC Interregional Programmes](#)

[For more examples of transnational co-operation](#)

PROGRAMME SUMMARIES AND THE SEUPB CONTACTS

PEACE IV

The €270m PEACE Programme 2014-2020 is a unique Structural Funds programme aimed at reinforcing progress towards a peaceful and stable society in Northern Ireland and the Border Region of Ireland.

The Programme's key objectives are:

- Shared Education
- Children & Young People
- Shared Spaces & Services
- Building Positive Relations

The eligible area for the Programme is Northern Ireland and the border counties of Ireland (counties Cavan, Donegal, Leitrim, Louth, Monaghan and Sligo).

For further information on the PEACE IV Programme contact:

Joint Secretariat Omagh,
Tel: +44 (0) 28 8225 5750
E: omagh@seupb.eu or Belfast,
Tel: +44 (0) 28 9026 6660
E: info@seupb.eu

INTERREG VA

The €283m INTERREG Programme 2014-2020 has been designed to address many of the developmental problems which are exacerbated by the existence of borders, in order to build upon opportunities for enhanced economic and social development across the region.

The Programme's key priorities are:

- Research & Innovation
- Environment
- Sustainable Transport
- Health

The targeted eligible area is Northern Ireland, the border counties of Ireland (Counties Cavan, Donegal, Leitrim, Louth, Monaghan, and Sligo) and Western Scotland (Lochaber, Skye & Lochalsh, Arran & Cumbrae and Argyll & Bute, Dumfries and Galloway, East Ayrshire and North Ayrshire mainland, and South Ayrshire).

For further information on the INTERREG VA Programme contact:

Joint Secretariat,
Monaghan.

INTERREG VB Transnational Programmes

The SEUPB has a role supporting the development of projects submitted to any of the INTERREG VB/VC Programmes.

These programmes are:

The Northern Periphery and Arctic (NPA) Programme

This €56million ERDF programme aims to help peripheral and remote communities in the northern regions of Europe to develop their economic, social and environmental potential. The programme area involves parts of Finland, Ireland, Sweden, Scotland, Northern Ireland in co-operation with the Faroe Islands, Iceland, Greenland and Norway. The SEUPB is the Regional Contact Point for Northern Ireland.

The North West Europe Programme

This €370 million ERDF programme aims to help make this new region more competitive, environmentally friendly and cohesive by improving access to more and better jobs, enhancing the environmental qualities of the region, improving accessibility and ensuring that cities and rural areas are attractive and sustainable. The programme area is France, the UK, Germany, the Netherlands, Ireland Luxembourg Belgium and Switzerland. The SEUPB works in an advisory and signposting role. The Atlantic Area Programme

The programme aims to achieve progress on transnational co-operation that is geared towards cohesive, sustainable and balanced territorial development of the Atlantic Area and its maritime heritage. The programme region covers all of Ireland and Northern Ireland, and those regions within Portugal, Spain, France and the UK that border the Atlantic Ocean. The SEUPB works in an advisory and signposting role.

INTERREG EUROPE Programme

The €359 million ERDF INTERREG VC Inter-regional Programme is aimed at local and regional authorities. It focuses on the identification, analysis and dissemination of good practices by public authorities in order to improve the effectiveness of regional and local policies.

Co-operation projects are eligible across all 28 EU states, plus Norway and Switzerland.
